"APOLLINARIS,"

The New York Me ical Journal recently publi had an interestin : item on mineral waters. It seems that the lay public is likely to confound table waters with medicinal waters containing active chemical substances, which cannot safely be included as part of the ordinary daily diet. The article says that greater attention is being directed to dietetic waters more generally called table waters, which, if pure, are of great value as hygicalic agents, and it recommends waters like Apollinaris, which is regarded as the leading dietatic table water,

TRE CHINA DIRECTORY. This is the THIRTY-FIRST ANNUAL LOBUE, and will be found, as usual, to show an advance on preceding years both in fullness and accuracy of information.

With which is incorporated

The DIRECTORY covers the whole of the ports and cities of the Far East, from Penang to Vladivostook, in which Europeans reside. Not only is the Directory as full and complete in each case as it can be made, but each Colony, Port, or Sottlement is prefaced by a DESCRIP TION, carefully revised each year, some of which will serve as accurate Guides for the Tourist, giving every detail in connection with the places their History, Topography, &c., &c.

The Information afforded in these Descriptions alone would suffice to fill an ordinary volume, consisting of over Eighty highly interesting articles, packed with facts concisely set out, and containing statistics of the TRADE of each Country and Port.

The work contains Directories and Descrip-

The total decrease corresponds with the table. To this de Saigon, en route to Bangkok. A guard of honcrease, Mr. Korsch says, each division of receipts, with the exception of export duties, Governor, and the Portuguese and Spanish Conhas contributed, and he mentions coast trade duties as having fallen by Tis, 62,588, whereas according to the table there appears to have been an increase of Tls. 83,184. It is not so easy to check the figures given in the report with reference to the import duties, as Mr. Korson has separated the duty on opium from the remainder, which is not done in the table. Taking the figures in of the Great White Horse Inn at Ipswich, one the report as correct, bowever, import Our New Factory has been recently refitted duties fell by Tls. 237,970 which Mr. with automatic Steam Machinery of the latest Kopsch takes as indicating a lessened and most opproved kind, and we are well able to volume of trade, notwithstanding that the compete in quality with the best English makers. total value has increased, the increase in value being put down to the supposed The purest ingredients only are used, and the enhance I prices due to the appreciation of utmost care and cleanliness are exercised in the gold. The decrease in revenue, on this theory, is to be accounted

having run in channels which happen to yield smaller returns to the Customs. The bearing of the figures on the trade of Hongkong can hardly be correctly appreciated until the reports and returns from Kowloon and Canton are published. but we find from the totals given in the returns attached to Mr. Korscu's report that the trade of both places shows a substantial increase as measured by values, that of Can-1890 and Tls. 45.957.092 in 1891 to Tls. 46,348,707 in 1892; while Kowleen has risen from Tls. 35,548,258 in 1891 to Tls. 35,741,932 in 1892, these figures, however, being considerably below those for 1890. But seeing that changes in the lekin duties cause trade to tend sometowards the other a more correct comparison will be arrived at if we take the trade of gives us the following figures :- in 1890, Tis. 77,074,724 ; 1891, Tls. 81,505,350 ; 1892, Tls. 32,090,639. These totals, it must be confessed, show a very satisfactory increase The Hongkong Disponsary, Hongkong.
